NOMINATION LETTER**August 2, 2000**

**Siemens Automotive
4685 Investment Drive
Troy, MI. 48098
Attn: Michael Tramutolo**

Re: ABS & Controlled Suspension Business**Dear Mike:**

On behalf of Delphi Global Purchasing, I am pleased to inform you that Siemens has been selected as the supplier for the DEC7.4 ABS & Controlled Suspension business to Delphi E & C for the Model Years 2004 through 2008. This decision was based, in part, on your final quote and pricing matrix and your technical presentations.

We continue to disagree with your flash price quotation. The incremental market price for flash is \$1.00 and our expectation is that Siemens will continue to work to meet this goal, or offset the difference through reductions in other areas of the ECU. Delphi will work with Siemens to help meet these market prices. Additionally, this nomination is contingent upon Siemens' acceptance of service part pricing for three years after regular production ends including part delivery as required, not through a one-time buy.

Provided that Siemens participation in all future pre-production programs is satisfactory and that your company is able to meet or exceed the agreed upon terms for service, quality, technology, price, investment/tooling and timing, we intend to execute (sign) the long term contract already agreed to with Siemens on these programs.

We appreciate the level of commitment which Siemens have shown to date, and look forward to working with you.

Sincerely,

**Brigitte Shepherd-Colter
Sr. Electrical Buyer - ABS
Delphi E & C**

**Brian R. Thompson
Sr. Electrical Buyer - Suspension
Delphi E & C**
